(54) Title: INTEGRATED PACKAGE

(57) Abstract: A layered product for non-touch application of an adhesive article comprising a cover layer inseparably attached to an adhesive layer, said adhesive article being interposed between a top layer and a bottom layer where the top layer is situated proximate to the cover layer and the bottom layer situated proximate to the adhesive layer, said bottom layer having a release layer which is releasable attached to a first end portion of the adhesive surface of said adhesive layer and where a second end portion of the adhesive surface of said adhesive layer is releasable attached to a first portion of a tap member which is attached to the top layer, or formed from a part of the top layer, and a second portion of said tab member forming a layer situated on the top layer.
